=====  
The rarest and most  
feared of the undead, and  
rightfully so, the lich is  
the corpse of a mighty  
spellcaster kept animate  
through the force of his  
undying spirit. The lich  
retains, in death, all the  
Magical potency it held in  
life, without any of the  
moderating influence of  
human feeling. The lich is,  
perhaps, the only monster  
more feared than the  
daemon.

Liche Lords:

-----  
In the deepest, darkest  
dungeons of Britannia  
lurks the lich lord, an  
abomination of all that is  
safe and true. Lich lords  
are created of the most  
powerful spellcasters,  
stronger than their lesser  
lich counterparts, but no  
less ruthless.
